EXPERIENCE

Web Developer

Electronic Cats | July 2021 - Present

I was working with the most common languages (HTML, JavaScript and CSS) to develop my own page, and a page for the Arduino Day Aguascalientes 2021, I also created a Discord Bot that collect data from the CFE's page, but it can be used in other pages, this, using NodeJS.

Workshop Facilitator

Mujeres al Espacio | 2021

I gave study sessions just for women, where I explained basic concepts about the programming, I taught them using Scratch and some electronic components.

Tester

Nitla Technologies | March 2021 - June 2021

I was doing manual testing for a mobile and web app about a system of food delivery, when I found a bug, improvement or any thing that must be changed, I worte the test case and any other important information about it to be solved.
